Abductor Beware Rules

1) **Yell**

Say things like: “I don’t know you”, “You are not my Parent”, “Leave me alone” the important thing here is to not just scream, yell something people can understand and will draw their attention.

2) **Run**

Run to someplace safe. If you are at school, run to someone in authority at the school. If you are at the Mall find a security guard or another parent. Find a Teacher, hall monitor, parent, policeman, security guard, etc.

3) **Tell**

Tell a Teacher, hall monitor, parent, or a policeman just to name a few. Find a Grown up you trust and tell them what happened. Remember!! it is not your fault this person tried to hurt you. We can only make sure you are safe if you tell someone.
